I. BACKGROUND

The Kitsap County Department of Human Services (KCDHS) is requesting proposals for moneys collected under RCW 82.14.460 and “must be used solely for the purpose of providing for the operation or delivery of chemical dependency or mental health treatment programs and services and for the operation or delivery of therapeutic court programs and services.” In 2005, Washington State approved legislation allowing counties to raise local sales tax by one-tenth of one percent to augment state funding of mental health and chemical dependency programs and services (including, but not limited to, treatment services, case management, and housing that are a component of a coordinated chemical dependency or mental health treatment program or service) and for the operation or delivery of therapeutic court programs or services. Programs are required to be new or expanded. In September 2013, the Kitsap County Board of Commissioners (BOCC) passed a resolution authorizing a sales and use tax for Mental Health, Chemical Dependency and Therapeutic Court Programs. This sales and use tax shall be known as “Treatment Sales Tax”. The BOCC has the decision-making authority for funding decisions, the KCDHS serves as the fund manager, and the Citizens Advisory Committee (CAC) has the recommending authority.

II. APPLICANT ELIGIBILITY

This RFP is seeking interested providers, both public and private, with applicable licensure, experience and infrastructure to provide Mental Health, Chemical Dependency and Therapeutic Court related services within Kitsap County. An individual must meet the requirements of 18.225 RCW and practice within their scope of work. A Certified Counselor is not equivalent to a Licensed Counselor for this RFP.

2. Requirements for providing substance use disorder treatment include:

2. Crisis Intervention/Triage Services.
3. Outpatient Care – Psychiatry, Medical and Medication Management, Counseling.

Funding under this grant program is allocated for a 12-month period. The period of performance for services solicited under this RFP begins January 1, 2019 and ends December 31, 2019. Carry over of unspent funds into the next program year is not automatic. Carry over requests will be reviewed by the Citizen Advisory Committee (CAC) and granted based on project performance and outcomes. Initial funding is not an assurance or guarantee of ongoing operational funding. The CAC places a high value on maintaining availability of funding for meritorious proposals without regard to prior funding history. Proposers are cautioned not to assume a commitment to future funding based on the receipt of funds in prior years. The funding process is competitive and funding recommendations are made based on the relative merits of all proposal received in each yearly cycle.

Certified Chemical Dependency Professional - An individual certified in chemical dependency counseling, under RCW 18.205.020.

Services may be delivered by 24-hour staff on premises, staff located on premises during business hours, visiting support staff, or mobile behavioral health teams that visit residents several times per week.

Sustainability - Refers to the continuation of the project or program beyond the grant funding cycle. Sustainability Plan – Developing an action plan to increase the likelihood of program sustainability.

Treatment Sales Tax – A sales and use tax for Mental Health, Chemical Dependency and Therapeutic Court Programs.

VI. PURPOSE AND SCOPE OF PROJECT

Kitsap County seeks to assure that citizens and policy makers spend the funds collected in an accountable and transparent manner, with community input and support, and with measures to determine the effectiveness of these publicly-funded investments. The County will require appropriate oversight, accountability, and status and progress reports for programs supported with the Treatment Sales Tax. Each funded project or program will be evaluated according to performance measures for outcomes and cost effectiveness.

1. Policy Goals

Programs shall achieve the following policy goals:

- Increase the number of stable housing options for chemically dependent and mentally ill residents of Kitsap County.
- Reduce the number of people in Kitsap County who use costly interventions including hospitals, emergency rooms, and crisis services.
- Reduce the number of people in Kitsap County who recycle through our criminal justice systems, including jails and prisons.
- Reduce the number of chemically dependent and mentally ill youth and adults from initial or further criminal justice system involvement.
- Reduce the incidence and severity of chemical dependency and/or mental health disorders in adults and youth.
- Improve the health status and wellbeing of Kitsap County residents.

2. Program Evaluation

Funded organizations must participate in the Evaluation Plan for Treatment Sales Tax Programs. Programs or services implemented under the Treatment Sales Tax are monitored by the Citizens Advisory Committee. Grantees will have an evaluation plan with performance measures developed for each funded proposal. This plan is developed in partnership with Kitsap Public Health District staff. The emphasis will be on capturing data at regular intervals that can be used to determine whether Treatment Sales Tax funded programs met expectations. Some common measures will be identified that programs will need to be able to report on.

Evaluation efforts must include standardized data collection and reporting processes that produce the following types of information:

- Quantity of services (outputs) *required*
- Level of change occurring among participants (outcomes) *required*
- Return-on-investment or cost-benefit (system savings) *strongly encouraged*
- Adherence to the model (fidelity) *required if applicable*
- Common measures (to be identified by the Citizens Advisory Committee and Kitsap Public Health District staff that all programs must report on) *required if applicable*

3. Evidence-Based Programs

The Citizens Advisory Committee (CAC) is committed to supporting programs and organizations who use Evidence-Based Programs (EBP) that have been accepted as a best practice in the field of mental health, chemical dependency and therapeutic courts and demonstrate fidelity to evidence-based standards. Promising Programs and Best Practice Programs include services, strategies, activities, or approaches that have some scientific research or data showing positive outcomes in delaying an untoward outcome, but do not have enough evidence to support generalizable conclusions. Innovative Programs introduce new ideas, methods and concepts that have not yet been researched. Promising, Best Practice and Innovative Programs will be considered for funding, but must include a robust evaluation process. Preference will be given to evidence-based programs that maintain fidelity.

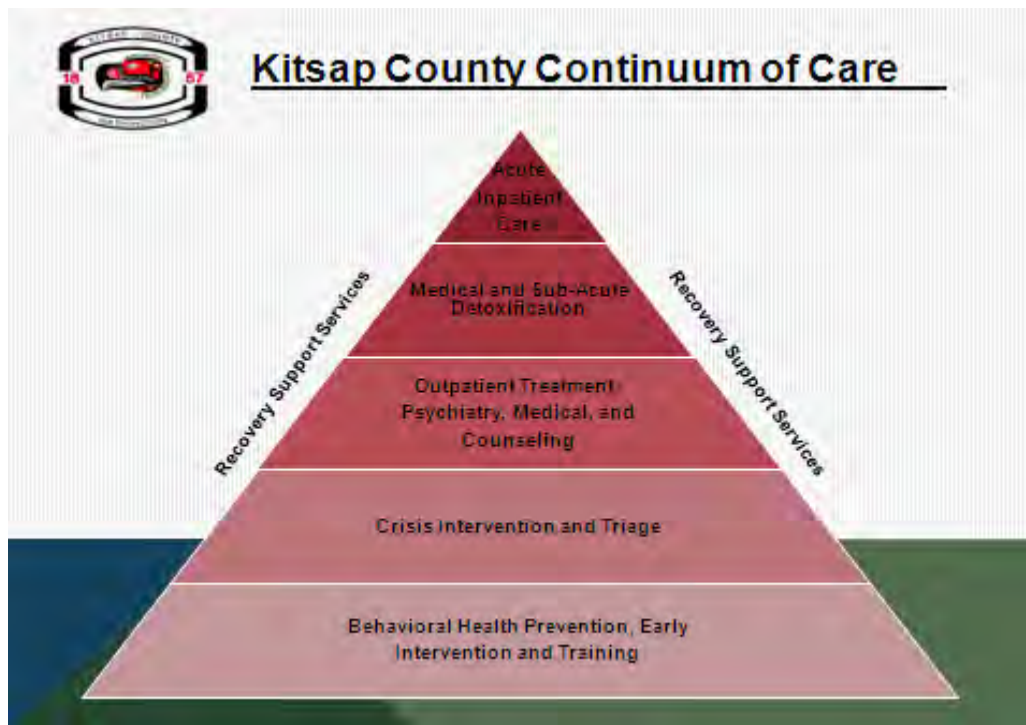

4. Collective Impact

The Kitsap County Board of Commissioners have recognized Collective Impact as a framework for making it possible for local behavioral health service providers to work together to help solve complex social problems, such as mental illness and chemical dependency. By working together with behavioral health partners from different sectors of the community, Kitsap County can transform a fragmented system of behavioral health programs into a coordinated system that is working towards improving the overall health of the community. An example of sectors working together for mutual benefits would include behavioral health treatment providers and housing programs. Housing advocates in Kitsap County have identified the lack of housing for individuals with behavioral health issues as one of their funding priorities. Behavioral health treatment providers have identified the lack of housing for individuals with behavioral health issues as a major gap in services. By working together these partners can develop and fund supportive housing programs that are mutually beneficial to both.

The CAC consists of persons who do not have a conflict of interest and are in alignment with the Bylaws and Mission Statement of the CAC. New Grant Proposals will be evaluated using Attachment H: New Proposal Evaluation and Scoring Form. Continuation Grant Proposals will be evaluated using Attachment I: Continuation Proposal Evaluation and Scoring Form. In addition, proposals will be evaluated for cost/price reasonableness. The CAC will convene to develop written questions they have regarding each proposal the week of August 31, 2018. Proposers will be notified of their questions in writing and will be scheduled for question and answer sessions the week of September 10 – 14, 2018. Proposers will have 15 minutes to address the questions from the CAC. The sessions are used to further the evaluation process and clarify questions raised by the written proposals. Be prepared to respond to questions about the proposal related to project design, community collaboration and the budget. Please bring the persons within the organization that can provide a response to these questions.

All applicants will be notified in writing of the acceptance or rejection of their proposals. EVALUATION WORKSHEET

INSTRUCTIONS:

Evaluation is the collection of information about a program in a systematic and defined manner to demonstrate success, identify areas for improvement and lessons learned. Every program has at least one end goal and might have several – one or more activities are required to make progress toward meeting the goal. Progress is measured with one or more objectives that might cover an output (number of something) or outcome (change over time) due to the program. The type of outcome (column D) and expected timeframe for change (column E) should be defined. Objectives must follow the “SMART” guideline: specific, measurable, attainable, realistic, and time-bound (column C). Each objective should include an expected target result and completion date (“time-bound” part of column C).

New and continuing grant proposals must fill out the Evaluation Worksheet.

DEFINITIONS:

Goal:	A broad statement or a desired, longer-term, outcome of a program. A program can have one or multiple goals. Each goal has a one or more related specific objectives that, if met, will collectively achieve the stated goal.
Activity:	Actions taken or work performed to produce specific outputs and outcomes.
Objective:	A statement of a desired program result that meets the criteria of being SMART (specific, measurable, achievable, realistic, and time-bound).
Output:	Results of program activities; the direct products or deliverables of program activities; such as number of: sessions completed, people served, materials distributed.
Outcome:	Effect of a program (change) - can be in: participant satisfaction; knowledge, attitude, skill; practice or behavior; overall problem; or a measure of return-on-investment or cost-benefit. Identify any measures that are “fidelity” measures for an evidence based practice.
Timeline:	Is the outcome expected to measure short-term, medium-term or a longer-term change? When will measurement begin? How often will measurement be done (frequency: quarterly, semi-annual, annual, other)?
Baseline:	The status of services or outcome-related measures before an intervention against which progress can be assessed or comparisons made. Should include data and time frame.
Source:	How and from where will data be collected?

7.2 Workers' Compensation and Employer Liability. The Contractor will maintain workers' compensation insurance as required by Title 51, Revised Code of Washington, and will provide evidence of coverage to the Kitsap County Risk Management Division. If the Contract is for over \$50,000, then the Contractor will also maintain employer liability coverage with a limit of not less than \$1 million.

Any additional workers' compensation requirements can be found in Attachment A, Special Terms and Conditions.

7.3 Commercial General Liability. The Contractor will maintain commercial general liability coverage for bodily injury, personal injury and property damage, subject to a limit of not less than \$1 million per occurrence. The general aggregate limit will apply separately to the Contract and be no less than \$2 million. The Contractor will provide commercial general liability coverage that does not exclude any activity to be performed in fulfillment of the Contract. Specialized forms specific to the industry of the Contractor will be deemed equivalent provided coverage is no more restrictive than would be provided under a standard commercial general liability policy, including contractual liability coverage.

The aggregate limit will be at least \$300,000. If a personal lines automobile liability policy is used to meet this requirement, it must include a business rider and must cover each vehicle to be used in the performance of the Contract and the certificates of insurance must evidence that these conditions have been met. If the Contractor will use non-owned vehicles in performance of the Contract, the coverage will include owned, hired and non-owned automobiles.

- C. The Contractor's commercial general liability insurance and automobile liability insurance (if applicable) will contain no special limitations on the scope of protection afforded to the County as an additional insured.
- D. Any failure to comply with reporting provisions of the policies will not affect the coverage provided to the County, its officers, officials, employees or agents.
- E. The Contractor's insurance will apply separately to each insured against whom claim is made or suit is brought subject to the limits of the insurer's liability.
- F. The Contractor will include all subcontractors as insureds under its policies or will furnish separate certificates and endorsements for each subcontractor. All coverage for subcontractors will be subject to all of the requirements stated in these provisions.
- G. The insurance limits mandated for any insurance coverage required by the Contract are not intended to be an indication of exposure, nor are they limitations on indemnification.
- H. The Contractor will maintain all required policies in force from the time services commence until services are completed. Certificates, policies and endorsements scheduled to expire before completion of services will be renewed before expiration. If the Contractor's liability coverage is written as claims-made-policy, then the Contractor must evidence the purchase of an

- B. The Contractor will furnish the County with properly executed certificates of insurance or a signed policy endorsement which will clearly evidence all insurance required in this Section before work under this Contract shall commence. The certificate will, at a minimum, list limits of liability and coverage. The certificate will provide that the underlying insurance contract may not be canceled, or allowed to expire, except on 30-days' prior written notice to the County. Any certificate or endorsement limiting or negating the insurer's obligation to notify the County of cancellation or changes must be amended so as not to negate the intent of this provision.
- C. The Contractor will furnish the County with evidence that the additional-insured provision required above has been met. Acceptable forms of evidence are the endorsement pages of the policy showing the County as an additional insured, or a letter of self insurance from a public entity risk pool which waives the requirement.
- D. Certificates of insurance will show the certificate holder as Kitsap County and indicate “care of” the appropriate County office or department. The address of the certificate holder will be shown as the current address of the appropriate County office or department.
- E. The Contractor will request that the Washington State Department of Labor and Industries, Workers Compensation Representative, send verification to the County that the Contractor is currently paying workers' compensation.

No costs incurred after the effective date of termination will be paid.

In that event, the County will pay the Contractor only for the costs of services accepted by the County. Upon such termination, the County, at its discretion, may obtain performance of the work elsewhere, and the Contractor will bear all costs and expenses incurred by the County in completing the work and all damages sustained by the County by reason of the Contractor's breach.
